## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-14 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:  
...forming double caps in the second layer of semi-conducting material;  
forming spacers adjacent sides of each of the double caps;  
forming double fins in the first layer of semi-conducting material beneath the double caps; and  
thinning double fins to produce narrow double fins, as required by claim 1.

Lastly the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:

...etching the  $\text{Si}_3\text{N}_4$  layer to form double caps, wherein each of the double caps comprises a rectangular cross-section with a width ranging from 50 $\text{\AA}$  to about 500 $\text{\AA}$ ;  
depositing and etching an oxide material to form spacers adjacent sides of each of the double caps, wherein the oxide material comprises at least one  $\text{SiO}$  and  $\text{SiO}_2$ ;  
etching the silicon layer to form fins beneath each of the double caps; and  
thermally oxidating the fins to thin the fins so as to produce narrow fins, wherein each of the narrow fins comprises a thickness ranging from about 100 $\text{\AA}$  to about 1000 $\text{\AA}$ , as required by claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
